PRESENTATION

Our memories, how many moments do we keep as regards so we can stay rambling between one and another when we have nothing else to do? Who has never caught yourself with a little smile at the corner of your lips for remembering a child's play during your childhood? Or, when the picture of the coffee table set by your dear grandma with the whole family around comes to your mind? And why not talking about your first love memory?

Do not think that I am only talking about good memories here, do you remember the first time at the coordinator's room? Unforgettable! What about the grated knees and that medicine that burned more than anything else?

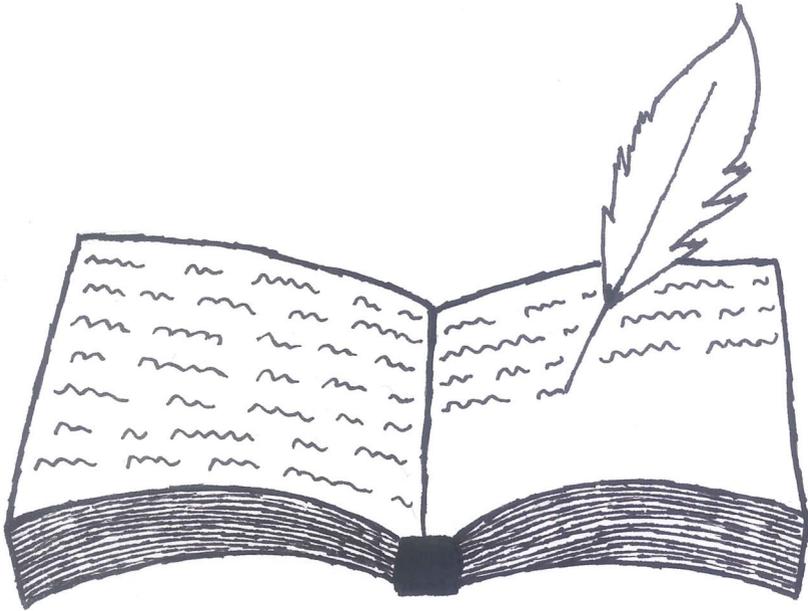

To celebrate the 80th birthday of our dear Colégio Sepam, the students from the 8th grade bring back in a letter to the reader some memories that have marked them so far. In the second quarter, during the English classes, we worked with the theme "memory" where we talked about our most remarkable memories. After the speaking practice, the students became familiar with the textual genre letter, getting anxious to put in the paper their memories as a Sepam student.

Dear reader, what you are about to read goes beyond a simple elementary student, the words presented in this book, tell the emotions of our little writers that have chosen to share now a piece of their lives inside Sepam.

And you, what memory would you like to live again?

Good reading!

Miss Jaqueline Zanluchi
English Teacher

dahi Gil

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, my name is Alex. Last year I was in the seventh grade so this year I am in the eighth grade. I am here to tell you a good memory of mine, the Jispam. The Jispam is a competition between the classes inside the school.

Last year it was so good, my class almost won the competition. We made many friends, we played a lot and, of course, it was very funny. All the people from my class competed. The sports were soccer, volleyball, basketball, table tennis, athletics and chess. The sports that I participated in were: soccer and table tennis, the team of table tennis was the first in the Jispam.

Every year there is this event. I hope that this year my class wins the competition and we have fun. All the classes try to win, because the winner class will have a barbecue at the end of the year. This is my best memory about Sepam in those past years.

Sincerely,

Alex Balzer Charrouf.

Ponta Grossa, 10th June 2019.

Dear readers,

I'll tell you a story that I have with Sepam. When I was in the sixth grade we went on a trip to a museum, the museum was in Curitiba, so we had to go by bus. The teachers separated the class because it did not fit our entire class in one bus.

The best part of the trip was when we were inside the bus, we listened to music, talked and laughed a lot, and after 1:30 pm we arrived at the museum.

When we arrived at the museum, we were separated into groups again, but I stayed with most of my friends. The museum was very nice, there were many interactive parts. We stayed about two hours in the museum. After, we got back to Sepam and we went home. I feel sad because it ended, but I hope to have more experiences like this.

Sincerely,

Ana Luiza Andrade Bezerra.

Ponta Grossa, 10th June 2019.

Dear readers,

Hi my name is André and I'll tell you my eight years of history in Sepam. When I was in the 4th or 3th grade our class went on a trip to Recanto Monteiro (aquatic park). Everyone was very happy until we had a problem. It was during June and July holidays and at this time of the year is very cold. Then the owner of the park had to take out all the water from the toys and put mattresses. It was such a funny day, but cold. If I remember there was a teacher who was too scared to go in this toy and everyone convinced her to go down, in the she did it and it was really cool.

For sure, it was a remarkable day for me and for my history in Sepam, I hope in the future we have different experiences like this.

Sincerely,

André Ingechak Dallabona.

Ponta Grossa, 10th June 2019.

Dear readers,

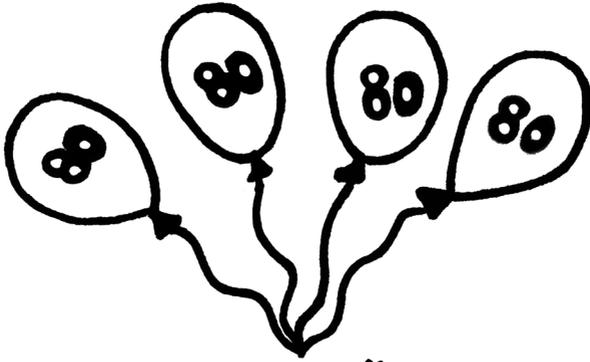

Hello, today I will talk about my favorite memory in Colégio Sepam. I started studying at Sepam this year, so I Will talk about my first Day at school. I arrived at school at 6:45 a.m., I was already friends with Yasmin, so it was so easy making new friends from that point. I got close to the girls in my classroom, I consider them a lot, they are my Best friends.

When I arrived in the school, Yasmin was waiting for me, we went to the classroom and Sat on the first middle row desk, I started talking to the other girls too, and they are nice!

After this text letter to tell you my first Day of class, I would like to say that I am in Love Colégio Sepam.

Sincerely,

Anna Luiza Garcia.

Hand-drawn

Ponta Grossa, 10th June 2019.

Dear readers,

Hi, today I'm going to tell you one of the things that has marked me a lot in these eleven years studying at Sepam. I've studied practically my whole life at Sepam, and every year the school evolves and grows.

What is remarkable to me were the theater classes, I attended it for a short time, I think for about three years, now I've stopped for a while because of some other commitments, but for sure I would like to do it again.

The theater, besides being one thing I really liked to do, helped me a lot with my shyness, what was very good, because now I can speak in public without getting so anxious.

I'm very happy to be studying at Sepam since I was a kid and I really trust this school because I have never felt bad in here and I always felt safe.

Sincerely,

Beatriz Namur dos Santos.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello! My name is Beatriz. I'm writing this letter to tell you a memory I have in Colégio Sepam. I started studying at the school in the kindergarten and now I am in the 8th grade. The teacher who most marked my life was teacher Gisele in the 2nd grade, I remember that on the last day of class all of us cried.

I remember when in the 5th grade my class cooked pancakes and the teacher put chocolate on them. I also remember the birthday parties from the first to the fifth grade, they happened in the barbecue place and we always received presents in the end of our party.

I met my best friend in the first grade, she is still my best friend nowadays. In the 6th grade the teachers changed, they were harder on us, but I liked all of them. I liked my friends and my class.

Sincerely,

Beatriz Pukasiewicz da Silva.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I am going to report the activity that I most liked to do at Colégio Sepam. It was a mathematics competition, but it was not just about doing mathematical operations, there were many challenges too.

One of the first challenges was to find QR Codes and solve the mathematical problem hidden in it. Another challenge was a volleyball game, at every touch on the ball we should make a quick calculation, the rules are the same as the volleyball game and if you miss the ball you wouldn't get any points. It was really cool, and I was in a group with two great friends of mine.

But the activity that I most liked to participate in was the pie in the face, where one member of each group stood in front of a desk and anyone who missed the answer would get the pie, this activity happened in the seventh grade.

Sincerely,

Bruno Rodrigues Di Mario.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello my name is Cauê Buffara Mongruel Laidane, today I will tell you a story from when my friend broke his jaw while he was playing.

We were in the 5th grande, in that year there was a new playground across the street for the kids. And my class ended up going to this new place.

Me and my friend Rafael climbed on the top of the playground toy. After we climbed we stood there for a while until we figure out a way to climb back down, so we ended up jumping from the playground toy. I jumped first and waited for Rafael to jump after me. When he jumped he fell on floor and minutes later he fainted. When he woke up he was with his jaw broken.

Sincerely,

Cauê Buffara Mongruel Laidane.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, today I'm here to tell you my incredible experience in the gastronomy class last year. I loved it, because it was a different class in Sepam. We cooked pizza, pasta, risotto and a delicious dessert, that I forgot the name. It got even better because I was with my best friend and other friends.

Mrs. Sônia and other people from the school tasted our foods and desserts, it was incredible. Before the class, me and my friends went to the playground waiting for the class schedule to start. We had a lot of fun.

Here at Sepam we had 3 gastronomy classes a week and it was very worth it, we learned a lot of cooking techniques. The best part of the class was the time of tasting the food, because it was delicious.

It would be really cool if I had other classes like that because it is so different. I wish I had a fashion class with Miss. Jaqueline, it would be cool.

Sincerely,
Cayenne Dias.

Ponta Grossa, 10th June 2019.

Dear readers,

I remember last year when me and my class were competing the Jispam of futsal. This happened in the last game to see who would be the champion in this modality.

Until the first half of the game we were winning from 2 to 0, then remaining 2 minutes before the end of the match the other team turned 4 to 2. But somehow we managed to tie it for 4 to 4, and the game went to the penalties. At that moment we were all nervous, specially the three who would kick the penalty. Curiously I was one of them.

In the first charge they scored the goal and we hit the crossbar. Then the other team missed the other 2 penalties, our team scored the other 2, and we managed to be champions. Like a team and a class we felt very united, proud and happy.

Sincerely,

Christian Gutknecht Baba.

Ponta Grossa, 10th June 2019.

Dear readers,

On a Saturday, on May 4th, Colégio Sepam created a volleyball competition, in which two schools from around the city would be playing against our girls' team.

When our entire team arrived, we started our warm up, very important before any game, so we don't get hurt easily. Then our volleyball teacher called all the girls who would participate in the game, he told us who would enter in the match first and our positions... so the game started.

The first game was a little easy, and we won. The second one we lost, but no one was sad because it was just the beginning of many games. We were in second place and we won medals. This experience of being able to play was a lot of fun.

Sincerely,

Daniella Dallarmi Gil.

Ponta Grossa, 10th June 2019

Dear readers,

When I was in the 5th grade, I was selected to go to the Ponta Grossa Math Olympics representing Sepam.

The day of the test arrived and I started doing it. For my surprise, the test was quite easy. After a while the results came with them all the awards that we would receive. I won a gold medal and my family was proud.

In the sixth and seventh grade I was also selected by Sepam to go to the Math Olympics, and in that year, I won a bronze medal.

I went to the Brazilian Mathematical Olympics in the 7th grade, and people from all over Brazil were there doing this test. It was a little bit difficult, and I won an honorable mention certificate. I didn't win medals, but I won a lot of Math knowledge.

Sincerely,

Eduardo Pazini Sari.

Ponta Grossa, 10th June 2019

Dear readers,

I remember many important events and memories from the 5th grade. I remember sports and summer marathons that I participated in, like: volleyball, basketball and athletics.

In the athletics tests, I participated in the races of 100 and 500 meters. In the race of 100 meters I was first and in the 500 meters I was eight. In the long jump test, I had 20 minutes to buy sneakers because minewere warn. I remember I bought black sneakers and I went back to attend the test. If I'm not mistaken, I managed to get in the podium and I received a bronze medal.

When I won the trophy I was very happy and after it I celebrated a lot with my new sneakers, so I guess they gave me luck. That was a very good and crazy day.

Sincerely,

Elder Rangel Golombieski.

Ponta Grossa, 10th June 2019.

Dear readers,

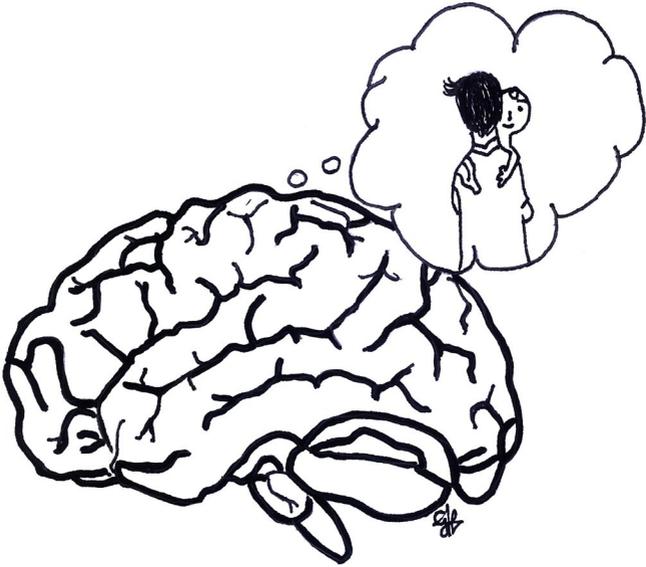

I have a memory from the school when I traveled to a science park in Curitiba in the 6th grade, where we saw things like pictures, monuments and technological apparatus, it was so cool to see how the scientists manage to do all those things.

We went to the park by bus. On the way there we had lunch at a restaurant. After lunch we arrived at the park. It was amazing, gigantic and with a lot of things to see, like: the space simulation, the hall of mirrors, a giant map of the city, an electric ball and others.

I could experience the space simulation and the giant map, so technological! You can use all the objects from that place so it was amazing. If you can, pay a visit and discover what science has to offer.

Sincerely,

Felipe Seixas Bonfati.

Ponta Grossa, 10th June 2019.

Dear readers,

My name is Flavia Scharan, in this letter I am going to tell you one of my experiences in Sepam. The school provides the students with city tours called “Sepam em férias”. During elementary school, in the 5th grade I went with Sepam to several tourist points in Ponta Grossa, as: the Villa Velha State Park, Ponta Lagoa club and Monteiro Lobato water park. When it was over, I was very sad, but then I realized that there would be other tours ahead of us: museum walks, travels and parties.

Another experience I had was the gastronomy classes. I learned how to make several foods such as: risotto, chicken with cheese, pizza and my favorite: creme brulee.

That was it, these were my experiences at Sepam. We students, put a lot of effort in our studies because school can be very difficult sometimes, so we need a break with friends to have fun.

I hope that you have good memories about Sepam, how not to?

Sincerely,

Flávia Isabele de Oliveira Scharan.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I'm going to talk about an experience that I had in Colégio Sepam from when I was little. I was 5 years old and I had a birthday party at school.

I still remember it today because it was very important to me, mainly because my family and my friends were celebrating with me. The theme of the party was Disney princesses. I had chosen this theme because I loved and still love them, I admire how they fight for what they want. The party was in room 15 and the cake was my favorite chocolate flavor, there were many sweets and snacks.

What I remember the most was that my family had a camera and they took pictures of the entire party. I also wanted to take a picture but I went to play and I sat down to eat at the back of the room. The most important thing was that I had a lot of fun so I'll never forget that day, among several others that I had in my 10 years of Colégio Sepam. So I just have to thank my school for all my experiences.

Sincerely,

Gabriela Lourenço de Macedo.

Ponta Grossa, 10th June 2019

Dear readers,

On May 4, 2019 the school held its first volleyball championship. Me and the girls from the team played against two other schools: São Jorge and Sagrada Família.

The first game was Sepam x São Jorge. The game started with São Jorge winning. As time passed, we started recovering points. After much despair we won, with two points of advantage.

The last game was against Sagrada Família. We started very well, but the other team manage to win in the end. I think we were very nervous.

Unfortunately, we lost, but we got second place. We won medals and a trophy. And that was only the first championship of many that we still have ahead!

Sincerely,

Gabrielly Fernandes da Silva.

Ponta Grossa, 10th June 2019

Dear readers,

In this letter I will be talking about my first day studying in the morning. It was so different, I waited my whole life to study in the morning. I don't know why but ok. It was like a normal first day. I made new friends, because the kids of class D ended up coming to our class, and there were also 3 new girls and one boy. One of these girls that entered in the 6th grade is my best friend now. The difference from the 5th grade teachers to the 6th grade was very noticeable, in the 6th grade the teachers were more serious but they were also kind with us.

But later I noticed that in the morning you have to behave all the time because the students from the other grades are older and they can make fun of you. That day I heard them saying that me and my classmates were from the kindergarten. But after I notice that this is normal.

In general, my 6th grade was good, there were the good and bad things but it was nice. And this is a little bit of my 6th grade.

Sincerely,

Giovana Blazelis Gruzka.

Ponta Grossa, 10th June 2019.

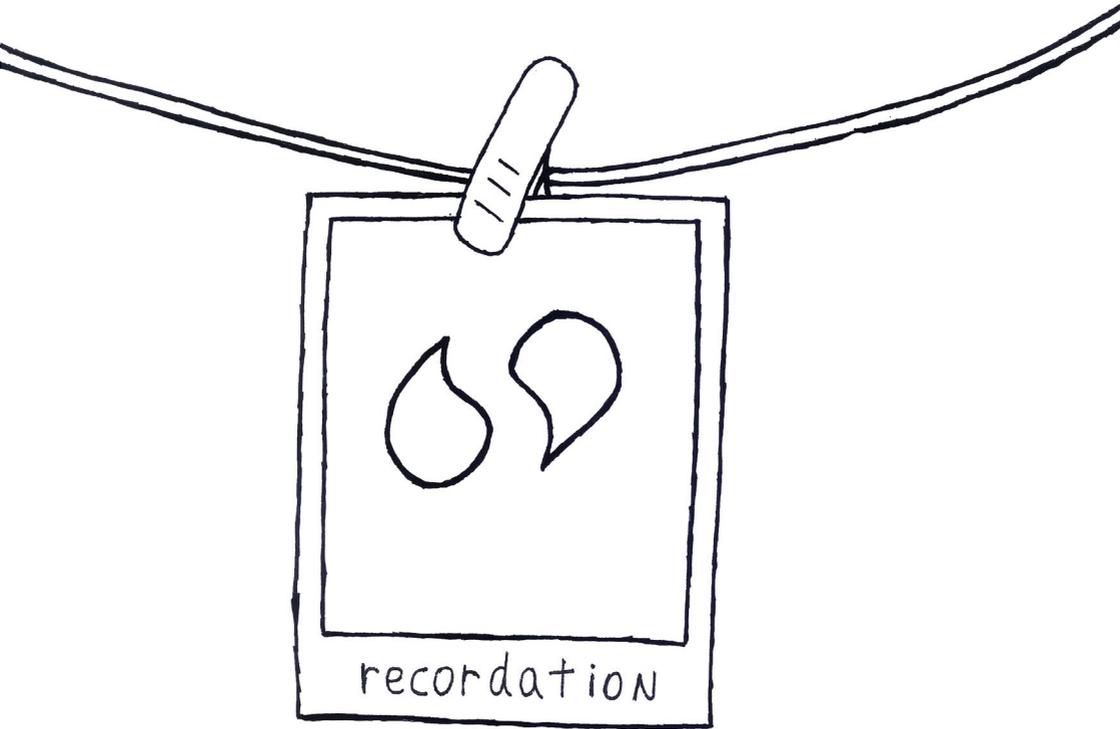

Dear readers,

Everything started in 2015, I had a rhythmic gymnastics competition. There were 50 girls in my category, and I was very nervous, that's why I was training a lot. I was the first to open the category.

My results would go out on Sunday, so I waited and waited... until the great day arrived to know if I really did well. Everyone was already on the court, very anxious for the results, the judges started with the small girls. After that they started telling the grades of my category, it started from the tenth place in decreasing order.

The judges took about five minutes to tell who won, and when they spoke: "First: Giovanna Favarin" my heart stopped, and I went to get the golden medal. It was really incredible.

Sincerely,
Giovanna Favarin.

dani gil

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, my name is Gustavo and I am 13 years old, I have studied in Sepam since 2008.

I have lived many experiences along the years here at the school, some bad and some good. Today I Will tell you a good one that I have been through. When I was in the 4th grade I was a bit lazy, I had already gone to the principal several times that year, sometimes unjustly, but I didn't let that shake me and I continued at the Sepam.

The 4th grade was the Best year of all, in that year I made many friendships, I did well on the tests and I was also called to play the JEM, playing futsal. We also had the Jispam, which my class won in all the modalities.

When the 5th grade arrived, unfortunately I changed of class, at first I didn't talk to anyone, I was very shy, but now I'm already adapted to this new class.

I already have 11 years of Sepam, and I plan to study here until in the college entrance exam, because is the Best school in Ponta Grossa.

Sincerely,

Gustavo Naldony Lorenzoni.

Ponta Grossa, 10th June 2019.

Dear readers,

I am here to talk about my first day at Colegio Sepam. It was in 2011, I was in the kindergarten and my teacher's name was Lia.

I already knew Giovanna who was studying with me in another school. I met Maria Joana and many other children too.

At the beginning of the class, we spoke our names to get to know each other. Then, I think we did some activity about vowels and consonants, how to count to ten or something like that.

Mrs. Lia read a story to us, we had the sleeping time and it was time to go back home again.

I still have many memories but this one is for sure the most important one because it was when I started to be part of this incredible story.

Sincerely,

Helena Pedroso Pavesi.

Ponta Grossa, 10th June 2019.

Dear readers,

Everything started, when I was in the kindergarten, teacher Andreia called me for something important in my classroom. Not just me but everyone was curious about it.

Teacher Andreia took me to the court, and at this moment I noticed that I was the chosen one to carry the torch of the opening ceremony of JISPAM. I was very, very happy. I trained for 2 weeks what I had to do.

Then the big day came, I was very excited and a little bit nervous, until the director of SEPAM, Osni, called my name, I went up the stairs with the torch on fire and everyone who was in the court started to clap, this time was magical, for sure I will never forget that.

If you ever get that honor of carrying the torch, do it. I wish you good luck and I can tell you to enjoy this moment very well because several people do not have this opportunity.

Sincerely,
Henrique Franzini Ozorio.

Ponta Grossa, 10th June 2019.

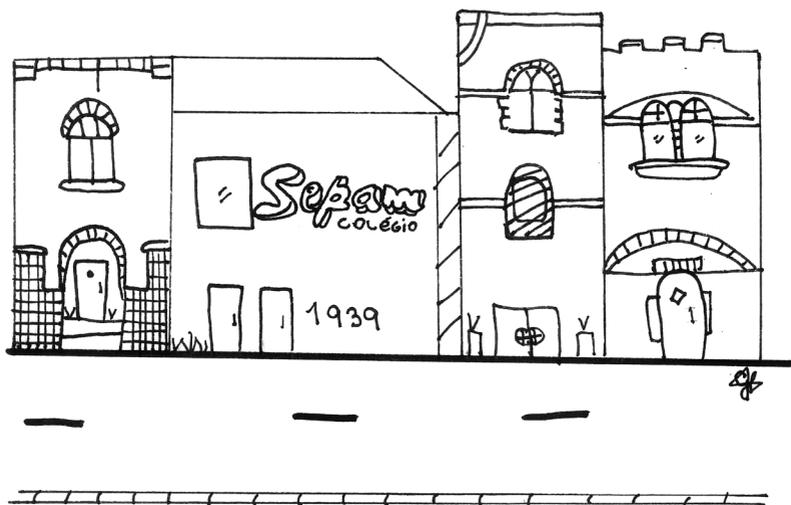

Dear readers,

Hi my name is Henrique, I will tell you one good memory that I have about the school: "Sepamemférias". Once, me and my friends went to Ponta Lagoa club, to play soccer, basketball and do many other activities. To get there we took a bus and arriving at the place we went straight to the playground.

After playing tug of war, everybody was hungry, so we went to have lunch, I ate pão de queijo and drank water. When lunch ended, we played soccer and I ended up hurting myself by cutting my knee. We came back to Sepam and stayed at the gymnasium, we were talking until our parents appeared to take us home. Without doubt it was a really cool day.

Sincerely,

Henrique Wataru Yasuda.

Ponta Grossa, 10th June 2019.

Dear readers,

Hi, my name is Isabella and today I'm going to tell you one of my experiences here in Sepam. In 2017 I started to study in the morning, I was very nervous because they had changed my class and I had no idea which class I was going to be and who was going to study with me.

I got in a classroom with some girls that already competed against me in Jispam, so I already knew them, I remember I was very competitive, but I've never played very well.

Still about my first day of class during the morning, I had my first class with Mrs. Joselí, she taught us History and I liked it a lot. Anyway, I think there are good and bad things about studying in the morning and until today I can't decide if I prefer the afternoon or the early mornings.

I am very thankful for studying in this school, I've learned a lot during my life.

Sincerely,

Isabella de Souza Martins.

Ponta Grossa, 10th June 2019.

Dear readers,

Hi, today I am going to talk about the day that I pretended to be sick to eat “empadinha”.

It was a normal day in the 4th grade. It was about two hours until the end of class, but I was very hungry, and I was really starting to get a headache because of it, so I called my father and he came to pick me up. To my happiness I went to eat the long awaited “empadinha”.

Arriving at home I had to drink a bad tasting tea that my mother made (that tastes like grass) and another one even worse, but my headache was really from hunger and it had already passed.

That was one thing I didn't regret doing, but I wouldn't do it nowadays.

Sincerely,

Isadora Pereira da Silva.

Ponta Grossa, 10th June 2019.

Dear readers,

These days, I remembered that my school will complete 80 years old, and a lot of good memories came to my mind. I have studied here in Sepam since kindergarten in the same class, it was a lot of time spent with my classmates and a lot of stories to tell.

Four years ago on Halloween, we came wearing with costumes and it was a funny day. There was a lot of jokes about this holiday, we were divided in groups for classes. In one part of the day we went to a Halloween room and all my friends, including me, were so scared because a man with a plastic axe stayed in front of the door. I decided to play the game but none of my friends wanted to go, so I ended up going

with a girl that I didn't know very well. When the game started the man called us to meet his family and this girl pulled me so I told her to let the boys go first since they "were gentlemen".

In the end I was very scared about that room and I cried, but today I know the people were just teachers who laughed at my iconic phrase above, and it was fun because in the next year me and one of my favorite teachers remembered this story and we had a lot of fun. I loved the time that I studied in the afternoon.

Sepam celebrates a lot of important dates and it's very cool, I learned a lot, because of this I still study at this school that I love so much.

Sincerely,

Izabela Bereza Cray da Costa.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I'm going to talk about a good memory I keep about Sepam. My memory happened when I won the basketball Jispam last year.

First, we played against the sixth grade, but we were already classified for the semifinals. Our team was the best, in theory, because all of our players played in the school team. We won another game and classified for the finals against the other seventh grade.

At the beginning of the game everything was disputed, until we opened the advantage of two points and so we won with six points of difference. After the victory we were all happy because it was our first championship.

All this has passed and it's now in our memory, this moment was very important, and I will never forget it. I have other good memories in Sepam and I love this school.

Sincerely,

João de Almeida Baggio.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, my name is João Guilherme and today I will tell you the sad story about how I got a scar on my forehead.

I was five years old, playing with my friends in the playground. We were actually running and I didn't see a wooden pole that was practically in front of me, guess what happened? I hit it and cut my forehead. There was blood everywhere.

So, the school's people called an ambulance and I went to the hospital, getting there, I took 22 stitches. I stayed almost one month without coming to school and it was actually boring because I didn't have anything to do at home, basically just watch TV.

This story happened eight years ago and you can still see the scar of it on my face.

Sincerely,

João Guilherme Carbonar.

Ponta Grossa, 10th June 2019.

Dear readers,

Hi, my name is João, today I'm going to talk about an event that is remarkable to me. I remember one day when it rained very hard, we had to stay in the classroom or on the stairs during the break. Cool times... I just had to watch the rain falling down.

This short period of time was the best, we used to play on the stairs, we ran everywhere, and we talked a lot. My greatest memory was about a rainy day. In that day, I was with my friend Rodrigo. We were really bored, then we had the idea to create an enterprise, "The Scientist", was its name.

The "Scientist" was a company that would develop futuristic technology, for example, to cross the telephone line. I think that's what Sepam did with me, changed my mind and modified my ideas.

Sincerely,

João Pedro Chaves Taets Garcia.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, today I will tell you about my last travel with Sepam when I was in the fifth grade. We were going to spend a day in a farm, but since there were two classes, we went in two buses, one class in one and the other class in the other bus.

When we arrived, we dropped our things in a room and we waited for the other class to arrive. When they arrived, the teachers gave us some ice cream and it was delicious. Before that, we played dodgeball in a big field, it was very nice until the ball fell into a nest of “quero-quero”, then I walked very slowly to the nest, when I took the ball I ran a lot because the “quero-quero” bird was behind me, it was hopeless, but very funny. After this we continued playing.

Two hours passed, then it was time to come back to school, so we started to organize our things. I took my stuff, changed my clothes and then I went to get another ice cream, but there wasn't any left.

We entered the buses and came back to school very happy.

Sincerely,

João Vitor Guasque Klaime.

Ponta Grossa, 10th June 2019.

Dear readers,

I'm here to talk about one day in Colégio Sepam. In the World Cup of 2018, we thought nothing special would happen here. Most of the games were in the afternoon, but in a certain day, the school director arrived in the room, warning us that we would watch the game of Brazil vs Costa Rica.

On the day of the game, we had the option of staying home or coming to school. We were very happy and excited.

About the World Cup, we won the first game, but it turned out that in the end we didn't win our hexa. They were very lively days here, and all over the world!

Sincerely,

Julia Pedroso Gorte.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello! I am going to tell you an event that was remarkable to me in Colégio Sepam...
Lets go!

Here in Sepam, there are classes of Rhythmic Gymnastics and I've always been to it since I was little and I love them. Sometimes over the years we have championships to participate in, some of them are held out of the city.

When I was in 3rd grade I participated in my first competition out of Ponta Grossa. It took place in Marialva, can't you feel how excited I was? I competed with in group choreography and alone, in the group with me were: Lívia, Giovanna, Maria Joana and Maria Luiza. We won the 1st place out of lots choreographies! In solo, I won the 3rd place and I was so happy for that! I remember that competition like it was yesterday! It was wonderful!

Sincerely,

Laís Canesim Betiol.

Ponta Grossa, 10th June 2019.

Dear readers,

My name is Laura Checon Lima Torres, I entered Sepam in 2017. When I got in, I was a very shy person, the first girl to come and talk to me was Lais. Then I made a lot of friends. Until I met Giovana, Isadora and Cecilia, my best friends, they were always with me and that changed my life.

In all those years of Sepam what I liked the most was participating in Jispam. In Jispam, me and Lais had funny moments in soccer because whenever a girl ran towards the goal I kicked the ball very far so Lais started to laugh and it made me feel good about seeing her smile. But it's a shame that we lost the games for the lack of one person to complete the team.

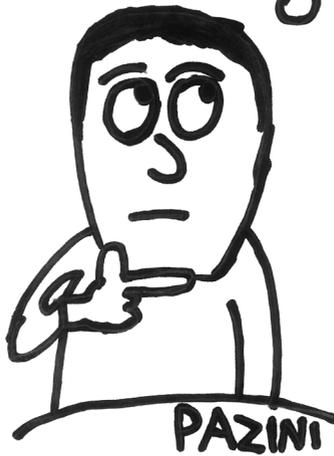

The thing I like the least in Sepam are the tests on Saturday, yes, they are on the weekend! I have to stay at home studying and I can't stay with my friends. I can not use my cellphone during the week before the tests so I would not be distracted.

I feel happy about the friendships I have made during these years in school, with both colleagues and teachers and I hope to be able to take advantage of all the knowledge transmitted.

Sincerely,

Laura Checon Lima Torres.

MY FIRST
CLASS DAY

Ponta Grossa, 10th June 2019.

Dear readers,

In this letter I will tell you one story that I've been through in my school. It all started when, in the 6th grade, my class visited a museum in Curitiba.

We entered in the bus, me and my friends sit together. When the bus started to go, we began to sing and dance, the teacher couldn't stop us, because we were many children for only one teacher. We spent the two hours of traveling just making a mess.

We arrived in the museum, it was very cool and funny. There were a lot of things about space, cities, revolutionary inventions, etc. This was one of the best trips I've done with Colégio Sepam, mainly for being with my best friends and for have been in very interesting and cool museum.

Sincerely,

Laura Moscardi Milléo.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I'll talk about when I cut my nose open. On a normal day of school I started to feel like going to the bathroom, so I asked the teacher if I could go and left. When I was going down the stairs, I fell and my nose was cut open. A lot of blood started coming out, I cried so much and I went to the hospital that my dad works.

I started the surgery that would stitch my nose close and my dad took a picture of it to show me later. When I saw it after the surgery I started to cry again because I didn't believe I had seen that horrible image. Before the surgery I was crying a lot and I'll never forget it.

Today I remember it everyday and I have some trauma of this. I don't cry anymore, and the solution is a psychiatrist that helps me to control my fear of injuries.

Sincerely,

Leonardo Henrique Bonfanti.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I will tell you a very cool story, it all started in my first year at Sepam.

In the 1st grade we had a birthday party at the school and on May 10th, 2012 I had a mine. I remember it was Jolie's theme, it was my favorite character. My cake was Jolie's too. Beyond the theme, at my party there was a light that kept making various colored shapes and a loudspeaker playing music. Out of the hall there was a playground where my friends and I played, our favorite toy was a boulder castle and we were princes and princesses.

Sincerely,

Letícia Scheremeta Lipinski.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, I am here to tell you about my journey in Colegio Sepam. I've been studying here for over 9 years and a lot has changed, the playground has changed places, an elevator was installed, they put air conditioning in the classrooms and many other things.

When my father was studying here, he could never imagine that the school would look so modern.

Now the school is one of the best in Paraná and has the best teachers of Ponta Grossa.

In those 9 years I've seen a lot of things change, but always for the best.

Sincerely,

Lucas de Oliveira Margraf.

Ponta Grossa, 10th June 2019.

Dear readers,

Six years ago I joined Sepam. When I first walked to school my teacher introduced me to the classroom, along with three other classmates who entered that year as well. I sat by the side of a messy boy, as I wanted to make friends I started messing with him, but just a little.

I remember that in the first class, the teacher introduced herself to the class, I found it very cool and funny, the second class was the English class, there was a student who was bilingual, his name was Christian, I was very surprised that he knew how to speak English, the English teacher was also very surprised and the class only talked about that.

This school marked me a lot, because I learned many interesting things and to deal with my difficulties, the first day was very cool and remarkable for me, because it was with it that I started my walk here in Sepam.

Sincerely,

Lucas Tramontin Silveira Alves.

Ponta Grossa, 10th June 2019.

Dear readers,

I'm here to talk about an event that took place in Sepam in 2018 that many people liked and many didn't. The 12IN. So there are many things that can be improved if it happen again.

The 12IN was an afternoon at school where we did many things that pleased us and made us have a good impression of our English knowledge. If it is possible, in my opinion, the school could do it again, but giving the choice to participate or not of the activities, and there are many things that can be improved if it happens again.

The mini show performed in the end was very cool and I think that everyone liked it, so it would be good to happen again. We had the opportunity to meet many other students that we didn't even want to Interact with before. It was good to practice the pronunciation and reading of English and many other things.

Many students weren't there because it was on the second Saturday of August. So for that not happen again, they could provide a type of voting to decide the best day and time to hold the event one more time, the activities could be suggestions from all English and bilingual teachers.

Sincerely,

Lucas Zampieri Travasso.

Ponta Grossa, 10th June 2019.

Dear readers,

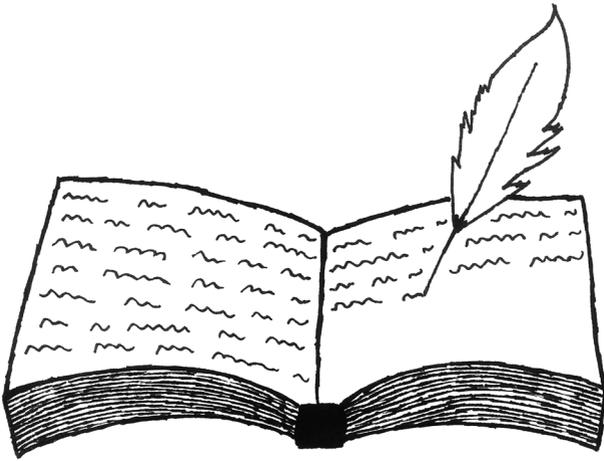

Hi, it's Luccas. How are you? I'm fine. I'm a Sepam student and I've enjoyed it a lot, so today I am going to share with you very nice experiences I had here at the school.

Last year, when I was in the seventh grade we had an event called "12IN". I enjoyed it a lot, there was food, karaoke and many cool activities, but it was much better because my friends were there with me. Another cool event was the "Sepam em férias" with trips and tours.

Over the years I made new friends, who helped me a lot with my studies. I have always liked Sepam, where I have good memories. I'm glad to be in this school, one of the best schools in Paraná.

Sincerely,

Luccas Alexandre Fontinelli Vargas.

dahi Gil

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, I am here to talk about my years in ColégioSepam. Everything started in 2016 when I entered in the 5th grade. My classroom was quite friendly on my arrival, my first friends were Yasuda and Carlos, it was difficult to get used to the school but I did well in general.

I still remember my first trip with the school, we went to a farm where we played with water balloons, we also played soccer and we made a slide, like a toboggan while it was raining. It was a trip that marked my entrance in Sepam and helped me to make more friends.

Now I am in the 8th grade, I am 12 years old and I know that the best thing I did was coming to this wonderful school.

Sincerely,

Luiz Antonio Venacio Junior.

Ponta Grossa, 10th June 2019.

Dear readers,

I had many experiences in Sepam over the years, I have studied here since the kindergarten, so I will tell you one of the moments that I really like.

I was at the "acantonamento", that is an event in which we have many gymkhanas and we sleep (very late) at Sepam. It's very funny, it was on a Saturday night, more specifically at 2a.m we were playing hide-and-seek, everyone hid and Álvaro looked for us. I was with two of my friends hiding in a corner of the school and Álvaro arrived in silence without us seeing him, so he screamed "quanta ratazana" at us. We were so scared that we gave a loud scream.

This night was really cool and I remember it until today with details.

Sincerely,

Manuela Celano Menezes de Almeida.

Ponta Grossa, 10th June 2019.

Dear readers,

Well, 80 years! I remember when I got into Sepam in the 4th grade. My favorite memory that I have about this place is from last year, on 12IN day!

It was on a Saturday, the students came to Sepam and we made a lot of fun activities related to amusement park. At night we had a party with finger foods and punch!

There was “money” and we could use it to buy food and play activities that we could get awards. There were also a lot of games like mechanical bull, set of rings, circus, soccer, zipline, mystery games and karaoke. We also ate our own hamburgers, yes, we could make it. Mine was amazing!

How I said, at night we had a party with a lot of cool songs, chips, donuts, soda and punch. I danced a lot.

My day ended at 21:00 o'clock. I loved this day and I expect that Sepam do it again this year!

Sincerely,

Maria Augusta Gomes Nadal.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I will remember the day I entered in Colégio Sepam. I didn't know anyone, and I was afraid of everything and everyone. Afraid of not having friends, and the teachers wouldn't like me.

During the year I met several people that we still talk until these days. Many of these friends left school, but many remained, building strong ties with the school.

During my first year I met a teacher, her name was Lia, she was incredible, because she let us sleep for a time. She used to tell us stories and make us laugh.

I have studied in Colégio Sepam since my five years old. I love here and I intend to stay in this school until I graduate. I hope to have several other good moments to tell.

Sincerely,

Maria Joana Bandil de Oliveira.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, I'll tell you about a story that I lived in Sepam, it was in the fourth grade. My friends and I had created a game almost like grab handle. We spent some time playing this, until one day we went to play in the playground, we were a little agitated. One of my best friends was looking back and running really fast, when he turned his head forward, he hit the pillar and started to cry.

When I saw him closer his head was full of blood, the teacher came running to help him, some people were desperate, and I was scared at that moment.

Of course, he went to the hospital and came back to the school a week and a half later, he had 5 or 7 stiches. This is one of most remarkable memories I have.

Sincerely,

Mateus Baptista Pizyblski.

Ponta Grossa, 10th June 2019.

Dear readers,

I am here to tell you about a memory I have about Sepam. This is a memory from my childhood, it happened in the 5th grade and it was sad.

It was supposed to be a good day. I woke up went to a restaurant to have lunch, I went to school and had my Portuguese class, later I learned a bit of science and finally I was so happy because my next class would be P.E(physical education) and to top it off we were going to play soccer.

When we started to play, I ran after the ball to get it and try to score a goal, but suddenly my friend came and slide tackled me, so of course I fell. When I fell, I could feel that my arm had broken, and I started to cry because it was hurting a lot.

So that is how you turn a good day into a really awful day.

Sincerely,

Matheus Estevão Andreatta Oliveira.

Ponta Grossa, 10th June 2019.

Dear readers,

My name is Matheus and I am here to talk about one of the most wonderful days in my life.

Last Friday (May10th, 2019) I was really sad, I was suffering bullying and I was afraid to talk about it with anyone, so my friends figured out what was happening and took me to the coordination.

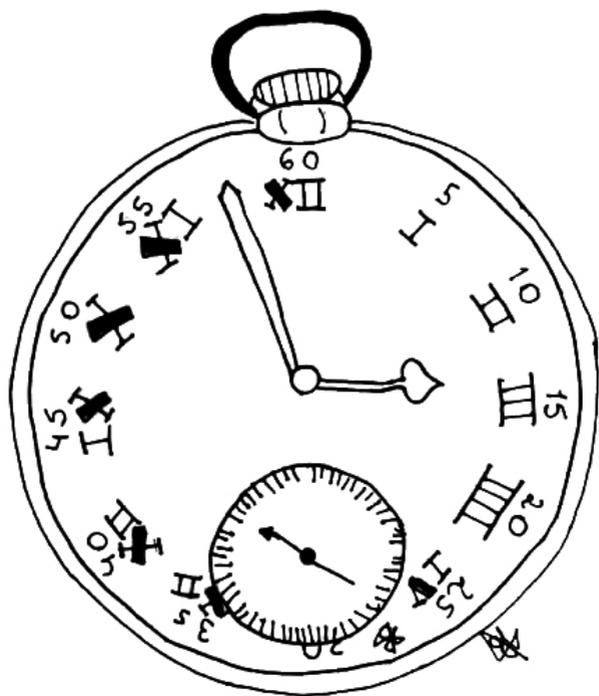

There, Mrs. Sônia and Mrs. Juliana helped me to deal with those problems and I could never imagine that telling them would fix everything. From that day on the bullying started to disappear and I stopped listening to the bullies.

What I want to say is that I am very grateful for everything that Colégio Sepam did for me and I am proud to participate in this huge story.

After all this I keep thinking: I overcame everything, but maybe other kids do not have this luck, so I suggest that you talk with your friends about everything because they will never hurt you.

Sincerely,

Matheus Menezes Garcia de Barros Cordeiro.

Ponta Grossa, 10th June 2019.

Dear readers,

I have been at Sepam for 4 months, so I don't have many good times here yet, but I will try to think about it.

I remember when I met my friends, it was very cool, I started to talk with more and more people and I keep their friendships until nowadays. When I am sad they help me to become happier.

This is one of the good moments that I had at Sepam in these 4 months, but I really like the school, people here are very friendly and charismatic.

Sincerely,

Nagib Colaça Nassif Palma.

Ponta Grossa, 10th June 2019.

Dear readers,

Today I'm going to tell you a story that happened with me, the story is about how I almost fell from the iron stairs, it seems like it was nothing, but it was really scary. Well, let me start from the beginning.

It was an ordinary day in Sepam, as always. I was going to the bathroom, in that time it didn't have the ramp, so I was going by the iron stairs because it was closer and it was on my way. I was just fine, I was actually happy that day, a thing that is really hard for me. I took a step, another one was gone, and "BAM", I was hanging. It didn't have any protection in that time, just the bars, every time I tell that story, everybody asks me how I fell, but even I don't know the answer.

So I was there for a while, I couldn't come back to the stairs, I was very scary, and the worst, two people passed by me and didn't help. I was thinking it was the end, but luckily my best friend was in the bathroom, when she saw me, first she started laughing, but after that she helped me and we went to the class. We didn't talk about that for a while, but when we did it was really funny.

Sincerely,
Nathália Stüpp.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, I am here to talk about my experience in Colégio Sepam. I entered here in the first grade. One of the events that most marked me was without doubt the Halloween. The teachers made boxes with food inside to pretend it was animals, such as: the pasta was meant to be earthworms, it was very cool! We got dirty, but it was an unforgettable day!

I also remember that we had to put our face in the water and then try to catch the sweet earthworms in the flour. I loved that day, without a doubt, it was the best day ever! I loved to be with my friends!

Sincerely,

Nathalie Cristine Alves Chiarello.

Ponta Grossa, 10th June 2019.

Dear readers,

I will tell you about the Sepam Halloween of 2015. I guess that was one of the best days in Sepam because I had such fun.

In that day, everyone was wearing crazy clothes, including me. It was so nice.

There were a lot of fun games for us. There were also candies and activities. The thing that I liked the most was people's clothes. I was dressed as a zombie. Most of the time, me and my friends played hide and seek. Unfortunately, Halloween wasn't all day long, after the "party", we continued studying as usual.

But I'm here to tell you about the good part of that day, not about studying (we do this everyday). Well, me and my friends created a new kind of game, we called it "Zombie". The game consisted in one kid started being the zombie and its purpose was to catch other kids, when the zombie caught someone, this person turned into another zombie, and so on, until the zombies caught everyone.

Well, I guess I'll never forget that day!

Sincerely,

Pedro Henrique Cavalcante.

Ponta Grossa, 10th June 2019.

Dear readers,

Hi I'm here to tell you about an experience that is part of Sepam's history and a little of mine too. Since the fifth grade I attend theater classes, last year my teacher Renan had the brilliant idea of organizing the first sample of Drama ever in the school. I was so excited but when the day arrived, I was nervous because nobody had ever done it and the theater was full.

When it ended, I was so happy, everybody was excited about our presentation, my teacher was also happy, everybody liked it. This event happens until nowadays so if you have an opportunity, come to see us.

Sincerely,

Pedro Henrique de Oliveira.

Ponta Grossa, 10th June 2019.

Dear readers,

I am here to tell you a story that happened in Sepam in 2017. One day I was going with the entire class on a ride to a farm, we went there by bus. When we got there, there was a lot of cool stuff, food, games and many other things.

After a while, we started a water balloon war. It was insane and very cool, but for a long time I didn't want to play the game because I was without extra clothes to wear.

I kept thinking and I decided that I was going to participate. I took some balloons and went to fill them, there was a queue to fill the balloons, while I was there, my friend took a balloon full of water and threw it at me, I was very angry and also I was laughing a lot.

This made us "enemies" in this war, each one threw a water balloon at the most unexpected possible moments, and it was very cool.

Sincerely,

Pedro Henrique de Souza.

Ponta Grossa, 10th June 2019.

Dear readers,

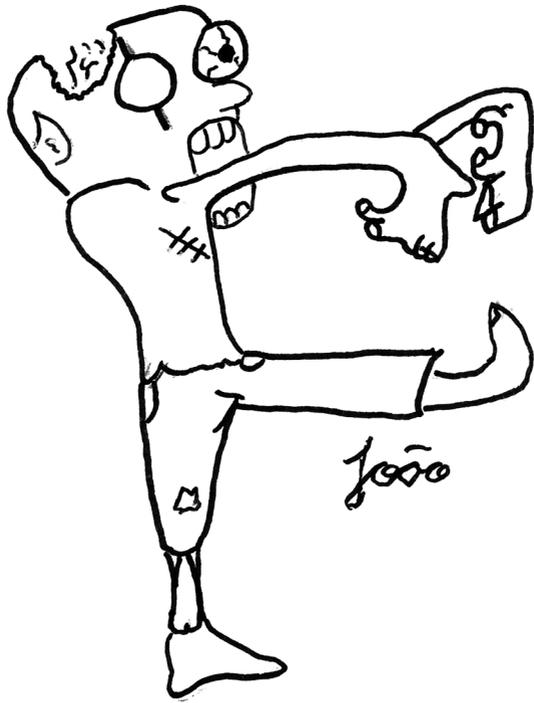

Once, in an afternoon, we (me and my class) went to "Sepam in Férias", I think you know what is it, but is like a week before the winter holidays, in which we visit some places, we eat, drink, have fun or see something new.

Some years ago, maybe I was in 3rd grade, we went to Recanto Monteiro. There were some pools and slides. I was always afraid about them, but in that year, I was decided to adventure myself, so when I got there the first thing I did was eat, yes, eat! But after that, I got up the slide, made a mental preparation, and after 30 seconds I went down, my heart was pounding and I was shocked, but happy. There was a zipline too, but I wasn't crazy.

For me, that day is remarkable. After this I lost a little of my fear of heights. And in the following "Sepam in Férias" I went down it a lot of times, but I kept not going in the zipline.

Sincerely,

Pedro Miguel Canedo da Silva.

Ponta Grossa, 10th June 2019.

Dear readers,

Last year there was an internal competition in the school called Jispam (Jogos Interséries Professor Altair Mongruel) and it was very cool. I was along with my old friends, competing in sports to ensure the first place in volleyball, futsal, handball, and basketball.

We won the volleyball and handball competition and we got the second place in futsal. Our volleyball and handball were technically strong comparing with the other teams. But in futsal and basketball we weren't good enough.

While we weren't playing, I talked to my friends and we watched other games that were happening. It was a really happy week.

Sincerely,

Pedro Oliveira Billerbeck.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, I am Rafael and I have studied at Sepam since I was 3 years old. I like to study here because I have many friends, teachers, activities and I learn different things every day.

One of the most important things that happened to me was about 3 years ago. I was playing at the playground with my group when, suddenly, I fainted and hit my face in the sandbox. When I woke up I was being helped by my teacher, so she took me to the coordinators and they called my parents.

When my parents arrived, they took me to dentist because I had broken my jaw. It took me more than 30 days to recover.

This is one of my memories from Sepam, not such a good one by the way.

Sincerely,

Rafael Garcia Nicolau.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello I am Rafael Moreira Martins, today I will remember an event that happened in Sepam when I was ten years old, me and my class went to a farm after school, there we could play with water balloons in a football field, we played with a lot of water and it was incredible, even the teachers played. Before going I was very excited and nervous because my crush was going too.

To be able to go to the farm, we needed the authorization of our parents and backup clothes because we were going to get dirty. The boys played dodgeball and the girls volleyball, when I was going to participate in the dodgeball a bunch of birds came to attack us because we were near their nest, I ran away from their home but I ended up stumbling and a bird attacked me, it was very funny.

When the shock passed it was time to go to Sepam again, everyone was tired and ended up sleeping in the bus. Arriving at Sepam we started telling stories that happened to us. When I returned home, I kept thinking about the day that was very remarkable specially as I managed to stay with my friends and my crush for quite a while playing.

Sincerely,

Rafael Moreira Martins.

Belma

Ponta Grossa, 10th June 2019.

Dear readers,

Hello my name is Rafael and today I am going to tell you one of my main stories in Sepam. This story happened in kindergarten and it marked me a lot.

Well, I was a child, so I did not know how everything worked out, but in this case I knew what was happening. Two friends of mine were running in a slope, when one of them fell and hit his head in a piece of iron. He was bleeding and crying. I saw it and started to cry as well, because I had never seen blood before, I was completely in shock.

After this I knew what was real blood and how people can get hurt, but I think I am not traumatized, because my memories do not bring me bad feelings or things like this, despite the nightmares that I had some days after this.

Sincerely,

Rafael Trentin Weigert.

Ponta Grossa, 10th June 2019.

Dear readers,

Today, I would like to talk about the coolest day I spent at Colégio Sepam and it was very important to me. In this day I had the opportunity to win the chess JEM with teacher Lucas and the other colleagues in the team. I found it very cool, the experience of my first time playing for the school was pretty amazing.

I really enjoyed that because after we came back to school we talked about the competition, we did some analysis of our matches and we took the rest of the time to play and talk a little about other subjects.

On this day, when we won the JEM, several friends of mine congratulated me, my family, people from the other schools, new friends, teacher Lucas, teacher Ben Hur also congratulated us. I will never forget this nice day because I helped the school win another medal at JEM. I hope that in the coming years I will follow the same path to achieve better results for the school.

Sincerely,

Rômulo Cardoso de Sá Rodrigues Mota.

Kelma

Ponta Grossa, 10th June 2019.

Dear readers,

I will tell one of my best experiences in this school. I came to study here in the 1st grade, I've been studying in this school for eight years. My best experience here was the 12IN last year. The 12IN is an event that we can spend a whole Saturday afternoon and night at school.

We participated in lot of fun activities and at night we had a party. We were separated in groups, and we couldn't choose our groups, but I liked the people who were with me.

My favorite activity was when we made hamburgers, it was very nice, but I also loved all the other activities. We had karaoke, escape room, pie in the face, zipline, mechanic bull, and we received fake money to buy things. I hope we have 12IN again, it's very nice.

Sincerely,

Sabrina Ferreira Mialski.

Ponta Grossa, 10th June 2019.

Dear readers,

One of my best memories in Colegio Sepam was in the 5th grade, we were reading an economy book in the classroom when the teacher had the idea for us to create our own business and start selling “geladinho”, fruits and sandwiches at school during the school break. With the money, we could go on a trip.

We were split into two groups, one to sell the things in the morning and the other during the afternoon. It was very successful! We got a good money and planned our trip.

When the day of our adventure came, we were very excited, looking forward to get to our chosen place soon and have fun. That was what we did, had a lot of fun all day long!!!

Then we went back home and we stayed one month talking about this trip that has marked all of us. Nowadays I'm 13 years old and if I had the opportunity to live it all again I would do it.

Sincerely,

Sergio Cavalcante Prusnei.

Ponta Grossa, 10th June 2019.

Dear readers,

I'm writing this letter to talk about one of many good memories I have related to Colégio Sepam. One of my best memories was when we went to watch Brazil playing in the World Cup against Costa Rica, on June 22nd, 2018.

I remember before the game the girls were painting their faces with the colors from Brazil, and the boys making noise with vuvuzelas. Everyone in the gymnasium was very happy for the start of the game. So, the game started, everybody was screaming, as if the world was about to end. It was very funny when Brazil scored a goal and everyone got very happy, until we knew the goal was not valid.

My best memory was when the game was already in overtime. There was not much left, if Brazil did not score a goal, we were disqualified, but thankfully Coutinho scored the first goal and Neymar the second. I will always remember this moment, it was very nice.

Sincerely,

Valentina Copack Muniz.

Ponta Grossa, 10th June 2019.

Dear readers,

Last year, when I was in the seventh grade, there were a lot of good things in Sepam, I met my friends better, I was very happy to know that I could count on them for everything, but many of my friends left the school in the end of the year and I lost contact with some of them.

In my first day of school I met my teachers who always supported me and helped me to know a lot of things and many of them I use until today.

I will remember all that I have been through in my life here and I will tell my children my story from my years in Sepam. I would like to have a class with those teachers from 2018 again, they explained the content very well and it was very easy to learn their subject when they were explaining, this made a lot of my life.

Sincerely,

Victor Hugo Ximenes Ribeiro Cavazzani.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello I am Victor Severich and I'm 13 years old. Today I'll talk about the day that a bird almost hit me with his wing. Me and my class were going to a farm.

But so far everything was going well, until we arrived, we discovered that there was a nice place and many things to do, for example: play football, dodgeball, down on the slide and several other things. There was a pool but the teachers did not let us in. I slipped down several times, had a snack in the afternoon, and I did almost everything we could do there.

It was time to play football, I joined the team and the ball was rolling. We started winning, I scored some goals and some assists, until one guy from the other team kicked the ball into a tree and there was a bird nest inside the tree. Someone had to get it. A boy, he took out the ball from the tree but did not know that there was a nest, so the birds attacked him, I was near him then the birds attacked me too but luckily they didn't catch me, after that I stopped playing football and went to do something else.

Sincerely,
Victor Severich.

Ponta Grossa, 10th June 2019.

Dear readers,

Hello, my name is Vinícius, I am student from Sepam and I've been studying here since the kindergarten. In here, I have had many good experiences but my favorite has always been Jispam because it is one of the moments where the whole school meets to play various modalities of sports, even those students who do not play a lot, they like to participate in Jispam. This event always happens in the third bimester, it is the most awaited time.

My best Jispam was last year, my classroom did not win but it was the Jispam that I had my best performance. The Jispam is the time of the year in which many people make new friendships.

Sincerely,

Vinícius Pohl Natal.

Ponta Grossa, 10th June 2019.

Dear readers,

My name is Vitória Hauagge and I'm here to tell you a memory that I have from the year I entered in Colégio Sepam. I joined the kindergarten in 2010. I love here because all of my friends are here and my friendship with them last more than nine years.

My birthdays were at the grill place of Sepam and my family and friends were there, they gave me a lot of presents.

My best friends are Giovana and Laura, but I entered before them, Giovana entered in the 3rd grade and Laura in the 6th, before they got in, my best friend was Manuela during the 4th grade. I am a friend of all my classmates and I love to talk with everyone.

The year that marked me was the 2nd grade, in 2013, because we had the best teacher, Gisele, also was the year that the class was divided (the boys went to a class, and the girls to another), and that's how it is until today.

Sincerely,
Vitória Hauagge.

Ponta Grossa, 10th June 2019.

Dear readers,

I'm here to tell you a story that happened to me when I was in the 7th grade. We had an event at Sepam that was called "12IN". At this event, there were many attractions, games, and at the end, a party.

When we got there, the teachers gave us a kind of "dollar" for us to spend with the attractions like the foods; there was popcorn, cotton candy, etc.

About games, there was pie in the face, mechanic bull, zipline, etc. My favorite was the zipline. Many people threw pie in my face and I fell many times of the bull. Despite that, it was very cool.

In the end, there was a party, with music, food, and lots of fun. It was very cool. I enjoyed a lot and I hope it happens other times.

Sincerely,
Yasmin Reda.

Ponta Grossa, 10th June 2019.

Dear readers,

I am Zion, in this letter I will tell you about last year when I was in the 7th grade. There was an event called 12IN, it was from 2 p.m. to 8 p.m. The 12IN was so crazy because everybody made hamburgers, climbed a climbing wall and danced at the party at night.

Me and my friend Zampieri were in different teams, each student received wristbands at the beginning of the event and if we spoke Portuguese one of our wristbands was removed from our arms. Vinicius won the competition.

In the end of the event there was a party, it was so exciting. The music was so loud. We played tricky games and in the next day Zampieri had a stomachache.

Sincerely,

Zion Bretas Maravieski.

Sepam Literary Collections Project

The Sepam Literary Collections Project has been part of Sepam School Pedagogical Projects since 2017, aiming the stimulation of students to practice the writing, showing them that each one has his / her discursive ability and identity through written texts, and that we can not get caught up in the premises: "I do not know how to write" or "the teacher is the only reader of my text".

Being part of the discipline of Textual Production, this project permeates every year of Elementary II, with the procedural purpose of writing development.

We do not seek perfect materials, but texts with the peculiarities of our writers students, as well as the exposure of the world's knowledge and the experiences of each one of them.

The Project itself envisions giving wings to words woven in the classroom, invading other spaces and enchanting unknown readers.
